

High Swivel Chair

Categories

Working Chair

- A.1.1.** The chair is equipped with a five-star base with a diameter of **660 mm**, manufactured from die-cast aluminium and finished with an electrostatic powder coating.
- A.1.2.** The chair is fitted with twin castors made of reinforced thermoplastic material (polyamide), with covers also made of polyamide.
- A.1.3.** Seat height adjustment is achieved by means of a gas lift, operated by a lever located underneath and to the side of the seat. The gas lift is covered by a telescopic cover manufactured from thermoplastic material (polypropylene). The seat height adjustment range is from **640 mm to 900 mm**.
- A.1.4.** The seat mechanism is manufactured from a die-cast aluminium alloy and maintains the backrest in a fixed position relative to the seat.
- A.1.5.** The seat is manufactured from wood sheets, formed and pressure-bonded (plywood), with a thickness of **12 mm**. A polyurethane foam cushion, **40 mm** thick, is mounted on the seat and upholstered in the selected upholstery.

Seat dimensions:

- Width: **480 mm**
- Height: **470 mm**

- A.1.6.** The backrest is manufactured from thermoplastic polypropylene (PP). A moulded polyurethane foam cushion, **30 mm** thick, is mounted onto the backrest and upholstered on both sides with the selected upholstery.

Backrest dimensions:

- Width: **440 mm**
- Height: **300 mm**

- A.1.7.** The chair is equipped with a chrome-plated metal foot ring, with height adjustment by means of a rotary knob.
