### Visitor Chair/ Collaboration Chair

- A.1.1.** The chair frame is made of circular-section steel rod, with a diameter of 18 mm and a thickness of 2 mm, suitably curved and welded to form the supporting frame of the chair.
- A.1.2.** The frame is chrome-plated and equipped with four (4) non-slip glides made of moulded thermoplastic material, ensuring stability and reducing sliding during use.
- A.1.3.** The seat and backrest are made of moulded thermoplastic material, PP with glass-fibre reinforcement (PP + glass fiber), and are secured to the frame by means of screws. A protective cover is fitted to the underside of the seat, contributing to seat protection and facilitating the stacking of the chairs.
- A.1.4.** The chairs are stackable and can be stacked up to four (4) units, facilitating storage and saving space.

### Dimensions:

- Width: **534 mm**
- Depth: **523 mm**
- Height: **809 mm**
