Wall & ceiling acoustic panels thickness

Categories

A. Wall-Mounted Acoustic Panels

A.1. Technical Specifications

A.1.1. The wall-mounted acoustic panels have a thickness of **18 mm** and are manufactured from **100% PET (60% recycled PET fibres and 40% virgin PET fibres)**. The panels can be mounted to the wall either by means of a high-performance self-adhesive film or by using dedicated plastic adapters that enable installation through a **click-on mounting system**.

B. Suspended Acoustic Panels

B.1. Technical Specifications

B.1.1. The suspended acoustic panels have a thickness of **18 mm** and are manufactured from **100% PET (60% recycled PET fibres and 40% virgin PET fibres)**. They are suspended from the ceiling by means of **adjustable suspension rods**.
