

Lacquered Cabinets

- A.1.1.** For the white lacquer finish, the outer top panels and side panels are manufactured from **25 mm-thick, three-layer E0.5-class particleboard**, faced with white melamine on both sides and finished with lacquer on both surfaces. The doors are manufactured from **18 mm-thick, three-layer particleboard**, also faced with white melamine and lacquered on both sides.
- A.1.2.** All cabinets are fitted with a security lock, except for the glass doors with aluminium frames.
- A.1.3.** All glass doors with aluminium frames for all cabinets, whether transparent or painted, are 4 mm thick.
