Auditorium Chair

- A.1.1.** The chair frame is made of circular-section steel tubing, with a diameter of 16 mm and a thickness of 1.5 mm, suitably curved and welded to form the supporting frame of the chair.
- A.1.2.** The frame is chrome-plated and equipped with four (4) non-slip glides made of moulded thermoplastic material, ensuring stability during use.
- A.1.3.** The seat and backrest are made of moulded thermoplastic material (PP) and are snap-fitted onto the frame.
- A.1.4.** The seat and backrest can optionally be fitted with a 20 mm thick polyurethane foam cushion, upholstered in the fabric or leatherette of choice according to the DROMEAS price list, providing additional comfort during use.
- A.1.5.** Armrests can be fitted optionally. They are made of chrome-plated circular-section steel tubing, with a diameter of 16 mm and a thickness of 1.5 mm. The upper part of the armrests is fitted with moulded medium-density polyurethane, providing comfortable support for the arms.
- A.1.6.** A wooden writing tablet can be fitted optionally. It is secured to the armrest by means of screws and can be positioned either on the right-hand or left-hand side of the chair.
- A.1.7.** A metal document storage rack can be fitted optionally. It is positioned underneath the seat and allows documents or other items to be stored.
- A.1.8.** Special plastic connectors allow the chairs to be linked together side by side in a continuous row.
- A.1.9.** The chairs in the version without armrests are stackable, facilitating storage and saving space.

Dimensions:

- **Width:** 495 mm
- **Depth:** 540 mm
- **Height:** 750 mm
