Visitor Chair/ Collaboration Chair

- A.1.1.** Swivel chair with a medium-height backrest, designed to provide comfortable and ergonomic use in professional environments.
- A.1.2.** The chair base is five-star, with a diameter of 660 mm, made of die-cast polished aluminium and equipped with twin casters made of reinforced thermoplastic material (polyamide). The twin casters can optionally be replaced with fixed glides, depending on the intended use.
- A.1.3.** The seat height is adjusted by means of a gas lift, which is operated by an ergonomic lever positioned underneath and to the side of the seat, allowing easy adjustment of the seat height to suit the user's needs.
- A.1.4.** The backrest and seat consist of a welded steel frame, entirely covered with moulded high-density polyurethane, providing durability and comfort during use.
- A.1.5.** The chair mechanism is made of die-cast aluminium combined with plastic components and features a reclining system that allows the chair to recline by 7°, as well as enabling it to be locked in position.
