- A.1.1.** The frame consists of a **central electrically height-adjustable column**, featuring telescopic movement of square-section steel tubes. The column is supported by a **steel base plate**, manufactured from **8 mm-thick steel sheet**.
- A.1.2.** All metal components are finished with **electrostatic powder coating**.
- A.1.3.** The desk features a worktop manufactured from **three-layer E0.5-class particleboard**, with a thickness of **18 mm**, melamine coating on both sides, and **2 mm-thick ABS edge banding** around the perimeter, available in a variety of colours according to the applicable price list. The worktop can also be finished with **lacquer in various colours**. A **plastic cable outlet grommet** is fitted to the worktop.
- A.1.4.** Height adjustment is achieved by means of a **control panel with memory function**, positioned underneath the desk worktop.
- A.1.5.** The desk can optionally be equipped with:
- An **add-on partition** manufactured from **18 mm-thick three-layer particleboard**, internally upholstered on both sides with **5 mm-thick foam** and externally upholstered with **fabric of choice**.
 - A **metal partition**, onto which suitably formed **steel sheet accessories**, such as shelves and other accessories, can be mounted.
